John Pepper
C/O Procter and Gamble
P.O. Box 599
Cincinnati, OH 45201

Dear Mr. Pepper,

Hello. I am writing to urge you to end the cruel animal testing procedures that you require for pharmaceuticals. These tests should be replaced with the more humane, ethical, and medically sound in vitro tests. Requiring these tests proves nothing other than America is stuck in the Dark Ages and **refuses** to end its barbarous programs. Please, as a caring man, I urge you to end this inhuman and cruel treatment.

I thank you in advance for all the work you will do to aid humans and animals alike in the **future**. Thank YOU.

Sincerely,

Susan Du Bois
